ANIMALS and PLANTS

IT'S TIME TO GROW
Animals and Plants is part of the It’s Time to Grow Environmental Learning Pack.

My name is:

Written by: Viktoria Keding
Illustrations: Michelle Gaugler
Design: DHPL 2019
1st edition 2013
Thank you to Elissa Brown & Elizabeth Lammert for their contribution.

Sponsors:
Animals, animals all around
In the sky and on the ground
and beetles, and cats
and bats
Plants, plants, grass and
Well-adapted and leaves
All the life that you can see
Nature helps out you and me.
Find and colour in the shapes in the camel-thorn tree:
Circle the smallest animal in each row:

An ostrich egg hatches after about 45 days.
Find and circle the 6 differences in the two pictures:

A young ostrich needs to stay close to its parents to avoid being eaten by predators.
Dot-to-dot

Connect the dots from 1 to 22:
Help each animal find its food and home. Draw a line to connect them.

- **food**
  - Insect
  - Grass
  - Mice

- **animal**
  - Snake
  - Antelope
  - Iguana
  - Bird

- **habitat**
  - Desert
  - Rocky area
  - Tree

The ostrich eats seeds, grasses and sometimes insects.
The story must be put in the correct order. Write in the number 1, 2, 3 and 4. The first picture in each story has been done for you.
Make your own animal mask.

1. Get an empty paper bag.
2. Draw a colourful face on it.
3. Glue on paper strips to make hair.
4. Cut out the eyes, nose and mouth.

At two years, the ostrich is ready to start its own family.
Did you know the ostrich at 2-3 metres is the tallest non-flying bird in the world?

How tall are you? Measure yourself on the Growth Chart. Go!
